

BABY BAGGIE

BOAT TYPE: Sailboats - Dinghy

INTRO:

BABY BAGGIE is quite long and difficult to build for its size (10 Foot) but has been designed mainly to satisfy the desire of having a small elegant boat.

DESCRIPTION:

We designed BABY BAGGIE with little concern for economy and ease of construction. The highest goal of this boat is to satisfy the aesthetic desire of having a small elegant boat. The result is a classical profile, vaguely inspired by the famous American sandbaggers: beautiful, crazy boats which were famous in the middle of the XIX century. BABY BAGGIE is a small sandbagger of our times. It is fast, powerful and sensitive: a small breeze is sufficient to reach a good speed and with good winds it affords strong emotions, even without requesting acrobatic qualities from the crew. The strip planking construction of the hull is neither easy nor quick but we have taken more into consideration the aesthetic aspects rather than the requirements of a novice builder. The cockpit and the deck are made of plywood and are easy to carry out.

DESIGN: Paolo Lodigiani

LOA: 3,04 m

BOA: 1,38 m

WEIGHT: 50 kg

SAIL AREA: 7,60 sqm

CONSTRUCTION: strip-planking

PRICE complete plans: € 58
