

DIAPASON 750

BOAT TYPE: Cruising Sailboat

INTRO:

DIAPASON is a small cabin cruiser 7,50 m length. It is a modern, simple boat with racy lines, good performances and internal accommodations suitable for cruising.

DESCRIPTION:

DIAPASON is a small cabin cruiser 7,50 m length. It is a modern boat with racy lines, very suitable for fast cruising. Internal living space is not that of a larger boat, but is ideal for a 7,50 m boat. There are four berths, a small essential kitchen and a WC. The two quarter berths may also be used as seats around a folding table. We have foreseen the possibility of an inboard motor, even if, with this type of dimension, an outboard motor offers some advantages. The boat, anyway, has been studied for sailing: even if the sail area is not excessive, it should reach good performance thanks to its rather narrow streamline hull. In order to limit the size of its internal centerboard trunk, we have foreseen a pivoting centerboard out of the hull. This prevents the boat from beaching but with a draft of about 65 cm and with the rudder up, it has easy access nearly everywhere.

DESIGN: Paolo Lodigiani & Matteo Costa

LOA: 7,50 m

BOA: 2,59 m

WEIGHT: 1289 kg

SAIL AREA: 33 sqm

CONSTRUCTION: plywood

PRICE complete plans: € 510
