

JUNIOR

BOAT TYPE: Sailboats - Dinghy

INTRO:

JUNIOR, designed to compete in Diecipedì (10 Foot) Class (www.diecipedi.it), is narrower and therefore less stable than other boats but it is one of the fastest monohulls of the class.

DESCRIPTION:

JUNIOR, designed to compete in Diecipedì (10 Foot) Class (<http://www.diecipedi.it/ns/main/index.html>) is quite narrow and therefore relatively unstable; these characteristics make it less easy to handle with unstable wind conditions, as well as strong winds, but the boat is very fast in light to moderate winds. As sail plan we have adopted the simplest type, the catboat, because it does not require a large sail surface. From the construction point of view the boat does not present particular difficulties and thanks to the "stitch and glue" system, it may be built in quite a short time.

DESIGN: Paolo Lodigiani

LOA: 2,90 m

BOA: 1,25 m

WEIGHT: 38 kg

SAIL AREA: 7,56 sqm

CONSTRUCTION: plywood

PRICE complete plans: € 49
