

PALOMA OPEN

BOAT TYPE: Cruising Powerboat

INTRO:

PALOMA is a simple, traditional and versatile boat which has been designed in three versions, as a small cruiser, as an open daysailer and as a motorboat.

DESCRIPTION:

PALOMA, has a very traditional hull, not suitable for boats which are expected to plane easily, but able to glide smoothly at medium speeds. It has been initially designed as a small sailing day-cruiser with interior accommodation for two persons. On request of our clients we developed two further versions, one as an open sailing boat, very stable, safe and ideal for family outings, and one as a motorboat. This last version has been chosen mainly for fishing.

A suitable motor is the inboard one if it is to be considered as a sailing boat. The construction is in strip planking: not very difficult even if more time is needed if we compare it to a plywood construction.

DESIGN: Paolo Lodigiani & Matteo Costa

LOA: 6,64 m

BOA: 2,30 m

WEIGHT: 950 kg

ENGINE: 20 HP inboard

CONSTRUCTION: strip-planking

PRICE complete plans: € 210
