

## PUCK 550 REGATA

**BOAT TYPE:** Sailboats, racing Micro-Class

**INTRO:**

The PUCK 550 REGATA has been designed with the intention of creating a MICRO CLASS easily and quickly realizable with the stitch and glue method, but able to compete seriously in the class.

**DESCRIPTION:**

The PUCK 550 REGATA has been designed with the intention of creating a boat in accordance with the rules of the Micro Class, having a chine hull. This allows it to be made in plywood with the "stitch and glue" method in a short time and at a reasonable price by a builder with little experience. Obviously the boat cannot be fully competitive with a similar boat with round hull built, with high-tech materials and most advanced techniques, but it can give good satisfaction in the races and allow the crew to compete with the best ones.

**DESIGN:** Paolo Lodigiani

LOA: 5,50 m

BOA: 2,36 m

WEIGHT: 480 kg

SAIL AREA: 18,5 sqm

CONSTRUCTION: plywood

**PRICE complete plans:** € 220
