

SAM

BOAT TYPE: Sailboats, racing Micro-Class

INTRO:

SAM is a pure racing boat built in composite with the sandwich technique. A prototype of this boat got a good result in World Championship of the class same years ago.

DESCRIPTION:

SAM has been designed to compete at the best level in the Micro-Class. A prototype of the boat got a good result in the World Championship of the class held in Austria in 2002. Since then it never participated to the class activity but in that occasion it had shown excellent performances. The boat is not suitable for cruising.
