

SILVER 333

BOAT TYPE: Powerboat – outboard runabout

INTRO:

SILVER 333 is a very small classical runabout for one or two people which may easily be transported on top of a mid-size car roof.

DESCRIPTION:

SILVER 333 is a very small classical runabout, for one or two people which may easily be transported on top of a mid-size car roof. Maximum suggested power of the motor is 15/20 HP, which is sufficient for planing. For safety reasons there is at the bow a crash-box, while in the cockpit a double bottom is foreseen, to make the boat unsinkable and the cockpit self bailing. The construction method is a variant of the stitch and glue type and is suitable for amateur builders with little experience. Fibreglass sheating is foreseen only for the bottom.

DESIGN: Paolo Lodigiani & Matteo Costa

LOA: 3,33 m

BOA: 1,52 m

WEIGHT: 80 kg

ENGINE: 15-20 HP

CONSTRUCTION: plywood

PRICE complete plans: € 70
