

TRILLO

BOAT TYPE: Cruising Multihull

INTRO:

TRILLO is a fast but non-extreme trimaran that we designed with the aim of making it as simple as possible for amateur boatbuilders.

DESCRIPTION:

There are on the market many excellent trimarans of the same size of TRILLO and TRILLO shares with them all the positive features of this kind of boat, first of all the exciting performances that make sailing on multihulls a real fun. Meanwhile TRILLO is not at all an extreme boat and can be used as a fast and reasonably comfortable day cruiser. TRILLO is quite stable and to capsize it one has to commit very serious mistakes. Our main object in designing the boat has been to keep all these qualities, combining them with economy, ease of construction, simplicity of handling. We have given a particular attention to the problems concerned with the retractable beams, with the mounting and dismounting and with the transport.

DESIGN: Paolo Lodigiani & Matteo Costa

LOA: 7,50 m

BOA: 5,95 m

WEIGHT: 750 kg

SAIL AREA: 36,5 sqm

CONSTRUCTION: plywood or strip-planking

PRICE complete plans: € 220
